PRODUCT DATA

SPERSESTAB™ 6425 UV STABILIZER

INTERSPERSAL

SperseStab™ 6425 is a 100% active liquid UV stabilizer system designed for use in polyolefins (including PP, TPO, HDPE), liquid color/additive masterbatches, and candles.

Performance benefits

- Synergistic formulation provides outstanding light stability
- Provides excellent surface protection in polyolefins
- Protects against discoloration in candles exposed to light
- Liquid form is easy to handle and disperse
- Good compatibility with polyolefins and candle waxes
- Low color contribution

Typical properties

Appearance	clear pale straw colored liquid
Active UV stabilizer content	100%
Freezing temperature	< 0°C

Guidelines for use

Typical levels of use in polyolefins and candles range from 0.1% to 1% by weight. Contact us for a custom recommendation for your application.

Storage

Protect from freezing temperatures, extreme heat, or direct exposure to sunlight.

Health and safety

Review the safety data sheet (SDS) prior to handling or using this product.
